Every blimps are delivered ready to fly and include:

- Two plies envelopes
- 6 to 10 Channel computerized 2.4 Ghz anti jamming system
- Top of the line servos
- Propeller guards
- Fast Digital Chargers 12V and 220V and charging leads for all batteries
- Lithium polymer motor batteries (1 set)
- Heavy duty electronic speed controllers

Size	Single Engine	Twin Engine
MZ 6000	7150 USD	9'900 USD
MZ 7000	7470 USD	10'450 USD
MZ 8000	7660 USD	10'650 USD
MZ 9000	10'900 USD	14'462 USD
MZ 10'000	11'690 USD	15'200 USD
MZ 11'000	14'300 USD	18'950 USD
MZ 12'000	17'120 USD	21'510 USD
MZ 13'000	18'900 USD	23'850 USD
MZ 14'000	20'800 USD	25'900 USD

All complete sets of blimps are test flown before delivery

## Following options are available for our blimps.

### Inner lighting

This option allows more visibility when you fly in concert arenas  
Price is 350 USD for indoor blimps, 900 USD for outdoor blimps.

### Back motor for MZ7000-MZ8000

For outdoor models, we can add a motor in the bottom thin to help the blimp to turn in close space. This motor is included in the indoor series.

Price is 490 USD .

### Higher autonomy / multiple batteries packs

If your projects require longer flights, we can add more batteries to your blimp

Picture will be available soon

### Safety drop line 50 meters

We developed a safety drop line that you can use in case of emergency (self or fail-safe deployment).

### Other projects ?

We are specialist in custom build options, please fell free to ask us about your special needs for your project.

Blimps have higher payload than multicopters, they fly longer and have less vibrations.

We can adapt most of the market 3 axis gimbals on our blimps with our fix-and-fly system.

The systems can be completed with following options depending your goals

- Remote shutter, focus, zoom control for various cameras and camcorders
- Motorised support for patch antenna, improve range and signal quality
- OSD (on screen display), it allow you to know altitude, distance from pilot, direction to pilot, speed, battery voltage, current, mAh
